AIRPORT AND AIRWAY DEVELOPMENT ACT OF 1970 AND AIRPORT AND AIRWAY REVENUE ACT OF 1970

AN ACT

To provide for the expansion and improvement of the nation's airport and airway system, for the imposition of airport and airway user charges, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

TITLE I—AIRPORT AND AIRWAY DEVELOPMENT ACT OF 1970

PART I—SHORT TITLE, ETC.

This title may be cited as the “Airport and Airway Development Act of 1970”.

SEC. 2. [84 Stat. 219, as Amended by 90 Stat 871, 49 U.S.C. 1701 Note]
Declaration of Policy.
The Congress hereby finds and declares—
That the Nation's airport and airway system is inadequate to meet the current and projected growth in aviation.
That substantial expansion and improvement of the airport and airway system is required to meet the demands of interstate commerce, and postal service, and the national defense.
That the annual obligational authority during the period July 1, 1970 through September 30, 1980 for the acquisition, establishment, and improvement of air navigational facilities under the Federal Aviation Act of 1958 (49 U.S.C. 1301 et seq.), should be no less than $250,000,000.

(a) FORMULATION OF POLICY.—Within one year after the date of enactment of this title, the Secretary of Transporta-
tion shall formulate and recommend to the Congress for approval a national transportation policy. In the formulation of such policy, the Secretary shall take into consideration, among other things—

(1) the coordinated development and improvement of all modes of transportation, together with the priority which shall be assigned to the development and improvement of each mode of transportation; and

(2) the coordination of recommendations made under this title relating to airport and airway development with all other recommendations to the Congress for the development and improvement of our national transportation system.

- (b) ANNUAL REPORT.—The Secretary shall submit an annual report to the Congress on the implementation of the national transportation policy formulated under subsection (a) of this section. Such report shall include the specific actions taken by the Secretary with respect to (1) the coordination of the development and improvement of all modes of transportation, (2) the establishment of priorities with respect to the development and improvement of each mode of transportation, and (3) the coordination of recommendations under this title relating to airport and airway development with all other recommendations to the Congress for the development and improvement of our national transportation system.

The Secretary of Transportation shall conduct a study respecting the appropriate method for allocating the cost of the airport and airway system among the various users, and shall identify the cost to the Federal Government that should appropriately be charged to the system and the value to be assigned to any general public benefit, including military, which may be determined to exist. In conducting the study the Secretary shall consult fully with and give careful consideration to the views of the users of the system. The Secretary shall report the results of the study to Congress within two years from the date of enactment of this title.

SEC. 12 [84 STAT. 221, AS AMENDED BY 85 STAT. 491, 87 STAT. 90, 90 STAT. 872, 49 U.S.C. 1712] NATIONAL AIRPORT SYSTEM PLAN.

(a) FORMULATION OF PLAN.—The Secretary is directed to prepare and publish, within three years after the date of enactment of this part, and thereafter to review and revise as necessary, a national airport system plan for the development of public airports in the United States. The plan shall set forth, for at least a ten-year period, the type and estimated cost of airport development considered by the Secretary
to be necessary to provide a system of public airports adequate to antici-
bate and meet the needs of civil aeronautics, to meet requirements in 
support of the national defense as determined by the Secretary of De-
defense, and to meet the special needs of the postal service. The plan
shall include all types or airport development eligible for Federal aid
under section 14 of this part, and terminal area development con-
cidered necessary to provide for the efficient accommodation of persons
and goods at public airports, and the conduct of functions in opera-
tional support of the airport. Airport development identified by
the plan shall not be limited to the requirements of any classes or cat-
gories of public airports. In preparing the plan, the Secretary shall
consider the needs of all segments of civil aviation. After June 30,
1975, the Secretary shall not include in the national airport system
plan any airport which is not eligible for airport development grants
under the next to the last sentence of section 16(a) of this title, except
that nothing in this sentence shall require the Secretary to remove
from the national airport system plan any airport in such plan on
June 30, 1975.

(b) **Consideration of Other Modes of Transportation.**—In
formulating and revising the plan, the Secretary shall take into con-
sideration among other things, the relationship of each airport to the
rest of the transportation system in the particular area, to the fore-
casted technological developments in aeronautics, and to develop-
ments forecasted in other modes of intercity transportation.

(c) **Federal, State, and Other Agencies.**—In developing the
national airport system plan, the Secretary shall to the extent feasible
consult with the Civil Aeronautics Board, the Post Office Depart-
ment, the Department of the Interior regarding conservation and natural re-
source values, and other Federal agencies, as appropriate; with plan-
ing agencies, and airport operators; and with air carriers, aircraft
manufacturers, and others in the aviation industry. The Secretary
shall provide technical guidance to agencies engaged in the conduct
of airport system planning and airport master planning to insure that
the national airport system plan reflects the product of interstate,
State, and local airport planning.

(d) **Cooperation With Federal Communications Commission.**—
The Secretary shall, to the extent possible, consult, and give con-
sideration to the views and recommendations of the Federal Commu-
nications Commission, and shall make all reasonable efforts to coopera-
te with that Commission for the purpose of eliminating, preventing,
or minimizing airport hazards caused by the construction or operation
of any radio or television station. In carrying out this section, the
Secretary may make any necessary surveys, studies, examinations, and
investigations.

(e) **Consultation With Department of Defense.**—The Depart-
ment of Defense shall make military airports and airport facilities
available for civil use to the extent feasible. In advising the Secretary
of national defense requirements pursuant to subsection (a) of this
section, the Secretary of Defense shall indicate the extent to which
military airports and airport facilities will be available for civil use.
(f) Consultation Concerning Environmental Changes.—In carrying out this section, the Secretary shall consult with and consider the views and recommendations of the Secretary of the Interior, the Secretary of Health, Education, and Welfare, the Secretary of Agriculture, and the National Council on Environmental Quality. The recommendations of the Secretary of the Interior, the Secretary of Health, Education, and Welfare, the Secretary of Agriculture, and the National Council on Environmental Quality, with regard to the preservation on environmental quality, shall, to the extent that the Secretary of Transportation determines to be feasible, be incorporated in the national airport system plan.

(g) Cooperation With the Federal Power Commission.—The Secretary shall, to the extent possible, consult, and give consideration to the views and recommendations of the Federal Power Commission, and shall make all reasonable efforts to cooperate with that Commission for the purpose of eliminating, preventing, or minimizing airport hazards caused by the construction or operation of power facilities. In carrying out this section, the Secretary may make any necessary surveys, studies, examinations, and investigations.

(h) Aviation Advisory Commission.—

1. There is established an Aviation Advisory Commission (hereafter in this subsection referred to as the "Commission"). The Commission shall be composed of nine members appointed by the President from private life as follows:

   A. One person to serve as Chairman of the Commission who is specially qualified to serve as Chairman by virtue of his education, training, or experience.

   B. Eight persons who are specially qualified to serve on such Commission from among representatives of the commercial air carriers, general aviation, aircraft manufacturers, airport sponsors, State aeronautics agencies, and three major organizations concerned with conservation or regional planning.

   Not more than five members of the Commission shall be from the same political party. Any vacancy in the Commission shall not affect its powers but shall be filled in the same manner in which the original appointment was made, and subject to the same limitations with respect to party affiliations. Five members shall constitute a quorum.

2. It shall be the duty of the Commission—

   A. to formulate recommendations concerning the long-range needs of aviation, including but not limited to, future airport requirements and the national airport system plan described in subsection (a) of this section, and recommendations concerning surrounding land uses, ground access, airways, air service, and aircraft compatible with such plan;

   B. to facilitate consideration of other modes of transportation and cooperation with other agencies and community and industry groups as provided in subsections (b) through (g) of this section.

In carrying out its duties under this subsection, the Commission shall establish such task forces as are necessary to include technical representation from the organizations referred to in this subsection, from Federal agencies, and from such other organizations and agencies as the Commission considers appropriate.
(3) Each member of the Commission shall, while serving on the business of the Commission, be entitled to receive compensation at a rate fixed by the President, but not exceeding $100 per day, including travel time; and, while so serving away from his home or regular place of business, may be allowed travel expenses, including per diem in lieu of subsistence, as authorized by section 5703 of title 5 of the United States Code for persons in the Government service employed intermittently.

(4) (A) The Commission is authorized, without regard to the provisions of title 5, United States Code, governing appointments in the competitive service, and without regard to the provisions of chapter 51 and subchapter III of chapter 53 of such title relating to classification and General Schedule pay rates, to appoint and fix the compensation of such personnel as may be necessary to carry out the functions of the Commission, but no individual so appointed shall receive compensation in excess of the rate authorized for GS–18 by section 5332 of such title.

(B) The Commission is authorized to obtain the services of experts and consultants in accordance with the provisions of section 3109 of title 5, United States Code, but at rates for individuals not to exceed $100 per diem.

(C) Administrative services shall be provided the Commission by the General Services Administration on a reimbursable basis.

(D) The Commission is authorized to request from any department, agency, or independent instrumentality of the Government any information and assistance it deems necessary to carry out its functions under this subsection; and each such department, agency, and instrumentality is authorized to cooperate with the Commission and, to the extent permitted by law, to furnish such information and assistance to the Commission upon request made by the Chairman.

(5) The Commission shall submit to the President and to the Congress, on or before January 1, 1972, a final report containing the recommendations formulated by it under this subsection. The Commission shall cease to exist 60 days after the date of the submission of its final report.

(6) There are authorized to be appropriated from the Airport and Airway Trust Fund such sums, not to exceed $2,000,000, as may be necessary to carry out the provisions of this subsection.

(i) Revised System Plan.—No later than January 1, 1978, the Secretary shall consult with the Civil Aeronautics Board and with each State and airport sponsor, and, in accordance with this section, prepare and publish a revised national airport system plan for the development of public airports in the United States. Estimated costs contained in such revised plan shall be sufficiently accurate so as to be capable of being used for future year apportionments. In addition to the information required by subsection (a), the revised plan shall include an identification of the levels of public service and the uses made of each public airport in the plan, and the projected airport development which the Secretary deems necessary to fulfill the levels of service and use of such airports during the succeeding ten-year period.

Grants for projects encompassing an area located in two or more States shall be charged to each State in the proportion which the number of square miles the project encompasses in each State bears to the square miles encompassed by the entire project.

(c) Regulations; Coordination With Secretary of Housing and Urban Development.—The Secretary may prescribe such regulations as he deems necessary governing the award and administration of grants authorized by this section. The Secretary and the Secretary of Housing and Urban Development shall develop jointly procedures designed to preclude duplication of their respective planning assistance activities and to ensure that such activities are effectively coordinated.

No air carrier airport (other than a commuter service airport)—

(I) served by air carrier aircraft heavier than 12,500 pounds maximum certificated gross takeoff weight, or previously served, on or after September 30, 1968, by air carrier aircraft heavier than 12,500 pounds maximum certificated gross takeoff weight and presently served by air carrier aircraft 12,500 pounds or less maximum certificated gross takeoff weight, shall receive under this subparagraph less than $187,500 or more than $12,500,000 for fiscal year 1976, including the period July 1, 1976, through September 30, 1976, and less than $150,000 or more than $10,000,000 per fiscal year for fiscal years 1977 through 1980; and
(II) served by air carrier aircraft 12,500 pounds or less maximum certificated gross takeoff weight which, since September 29, 1968, has never been regularly served by air carrier aircraft heavier than 12,500 pounds maximum certificated gross takeoff weight shall receive under this subparagraph less than $62,500 or more than $12,500,000 for fiscal year 1976, including the period July 1, 1976, through September 30, 1976, and less than $50,000 or more than $10,000,000 per fiscal year for fiscal years 1977 through 1980.

In no event shall the total amount of all apportionments under this subparagraph (A) for any fiscal year exceed two-thirds of the amount authorized to be obligated for the purposes of paragraph (3) of section 14(a) of this part for such fiscal year. In any case in which an apportionment would be reduced by the preceding sentence, the Secretary shall for such fiscal year reduce the apportionment to each sponsor of an air carrier airport proportionately so that such two-thirds amount is achieved.1

(B) Any amount not apportioned under subparagraph (A) of this paragraph shall be distributed at the discretion of the Secretary as follows:

(i) $18,750,000 for fiscal year 1976, including the period July 1, 1976, through September 30, 1976, and $15,000,000 per fiscal year for the fiscal years 1977 through 1980, to commuter service airports.

(ii) The remainder of such amount to air carrier airports.

(4) As soon as possible after the date of enactment of this paragraph for fiscal year 1976, including the period July 1, 1976, through September 30, 1976, and on the first day of each fiscal year which begins on or after October 1, 1976, for which any amount is authorized to be obligated for the purposes of paragraph (4) of section 14(a) of this part, the amount made available minus $18,750,000 in the case of fiscal year 1976, including such period, and minus $15,000,000 in the case of each of the fiscal years 1977 through 1980, shall be apportioned by the Secretary as follows:

(A) 75 per centum for the several States, one-half in the proportion which the population of each State bears to the total population of all the States, and one-half in the proportion which the area of each State bears to the total area of all the States.

(B) 1 per centum for the Commonwealth of Puerto Rico, Guam, American Samoa, the Trust Territory of the Pacific Islands, and the Virgin Islands to be distributed at the discretion of the Secretary.

---

1 Section 7(e) of the Act of July 12, 1976 (P.L. 94–353, 90 Stat. 876) provides the following with respect to enplanements during fiscal year 1976, including the transition quarter: "In making the apportionment for fiscal year 1976, including the period July 1, 1976, through September 30, 1976, under section 15(a)(3) (A) of the Airport and Airway Development Act of 1976, the Secretary of Transportation shall increase the number of enplanements at each airport by 25 percent."
(C) 24 per centum to be distributed at the discretion of the Secretary to general aviation airports. $18,750,000 of the amount made available for fiscal year 1976, including such period, and $13,000,000 of the amount made available for each of the other fiscal years shall be distributed at the discretion of the Secretary to reliever airports.

(5) Each amount apportioned to a State under paragraph (1) (A) (i) or (2) (A) or (4) (A) of this subsection shall, during the fiscal year for which it was first authorized to be obligated and the fiscal year immediately following, be available only for approved airport development projects located in that State, or sponsored by that State or some public agency thereof but located in an adjoining State. Each amount apportioned to a sponsor of an airport under paragraph (1) (B) or (3) (A) of this subsection shall, during the fiscal year for which it was first authorized to be obligated and the two fiscal years immediately following, be available only for approved airport development projects located at airports sponsored by it. Any amount apportioned as described in this paragraph which has not been obligated by grant agreement at the expiration of the period of time for which it was so apportioned shall be added to the discretionary fund established by subsection (b) of this section. For purposes of this paragraph funds apportioned pursuant to this section for fiscal year 1976, including the period July 1, 1976, through September 30, 1976, shall be available for obligation for the same period of time as if such funds were apportioned for fiscal year 1976 exclusive of such period.

(6) For the purposes of this section, the term "passengers enplaned" shall include the United States domestic, territorial, and international revenue passenger enplanements in scheduled and nonscheduled service of air carriers and foreign air carriers in intrastate and interstate commerce as shall be determined by the Secretary pursuant to such regulations as he shall prescribe.

(b) DISCRETIONARY FUND.—(1) The amounts authorized by subsection (a) of this section to be distributed at the discretion of the Secretary shall constitute a discretionary fund.

(2) The discretionary fund shall be available for such approved projects for airport development in the several States, the Commonwealth of Puerto Rico, the Virgin Islands, American Samoa, the Trust Territory of the Pacific Islands, and Guam as the Secretary considers most appropriate for carrying out the national airport system plan regardless of the location of the projects. In determining the projects for which the fund is to be used, the Secretary shall consider the existing airport facilities in the several States, the Commonwealth of Puerto Rico, the Virgin Islands, American Samoa, the Trust Territory of the Pacific Islands, and Guam, and the need for or lack of development of airport facilities in the several States, the Commonwealth of Puerto Rico, the Virgin Islands, American Samoa, the Trust Territory of the Pacific Islands, and Guam. Amounts placed in the discretionary fund pursuant to subsection (a) of this section, includ-
ing amounts added to the discretionary fund pursuant to paragraph (5) of such subsection (a), may be used only in accordance with the purposes for which originally appropriated.

(c) Notice of Apportionment; Definition of Terms.—The Secretary shall inform each air carrier airport sponsor and the Governor of each State, or the chief executive officer of the equivalent jurisdiction, as the case may be, on April 1 of each year of the estimated amount of the apportionment to be made on October 1 of that year. As used in this section, the term “population” means the population according to the latest decennial census of the United States and the term “area” includes both land and water.

(a) Submissions.—Subject to the provisions of subsection (b) of this section, any public agency, or two or more public agencies acting jointly, may submit to the Secretary a project application for one or more projects, in a form and containing such information, as the Secretary may prescribe, setting forth the airport development proposed to be undertaken. Until July 1, 1975, no project application shall propose airport development other than that included in the then current revision of the national airport system plan formulated by the Secretary under this part, and all proposed development shall be in accordance with standards established by the Secretary, including standards for site location, airport layout, grading, drainage, seeding, paving, lighting, and safety of approaches. After June 30, 1975, no project application shall propose airport development except in connection with the following airports included in the current revision of the national airport system plan formulated by the Secretary under section 12 of this Act: (1) air carrier airports, (2) commuter service airports, (3) reliever airports, and (4) general aviation airports (A) which are regularly served by aircraft transporting United States mail, or (B) which are regularly used by aircraft of a unit of the Air National Guard or of a Reserve component of the Armed Forces of the United States, or (C) which the Secretary determines have a significant national interest. Except as provided in subsection (g), all proposed development shall be in accordance with standard established by the Secretary, including standards for site location, airport layout, grading, drainage, seeding, paving, lighting, and safety of approaches.

(b) Public Agencies Whose Powers Are Limited by State Law.—Nothing in this part shall authorize the submission of a project application by any municipality or other public agency which is subject to the law of any State if the submission of the project application by the municipality or other public agency is prohibited by the law of that State.

(c) Approval.—
(1) All airport development projects shall be subject to the approval of the Secretary, which approval may be given only if he is satisfied that—

(A) the project is reasonably consistent with plans (existing at the time of approval of the project) of planning agencies for the development of the area in which the airport is located and will contribute to the accomplishment of the purposes of this part;

(B) sufficient funds are available for that portion of the project costs which are not to be paid by the United States under this part;

(C) the project will be completed without undue delay;

(D) the public agency or public agencies which submitted the project application have legal authority to engage in the airport development as proposed; and

(E) all project sponsorship requirements prescribed by or under the authority of this part have been or will be met.

No airport development project may be approved by the Secretary with respect to any airport unless a public agency or the United States or an agency thereof holds good title, satisfactory to the Secretary, to the landing area of the airport or the site therefor, or gives assurance satisfactory to the Secretary that good title will be acquired.

(2) No airport development project may be approved by the Secretary which does not include provision for installation of the landing aids specified in subsection (d) of section 17 of this part and determined by him to be required for the safe and efficient use of the airport by aircraft taking into account the category of the airport and the type and volume of traffic utilizing the airport.

(3) No airport development project may be approved by the Secretary unless he is satisfied that fair consideration has been given to the interest of communities in or near which the project may be located.

(4) It is declared to be national policy that airport development projects authorized pursuant to this part shall provide for the protection and enhancement of the natural resources and the quality of environment of the Nation. In implementing this policy, the Secretary shall consult with the Secretaries of the Interior and Health, Education, and Welfare with regard to the effect that any project involving airport location, a major runway extension, or runway location may have on natural resources including, but not limited to, fish and wildlife, natural, scenic, and recreation assets, water and air quality, and other factors affecting the environment, and shall authorize no such project found to have adverse effect unless the Secretary shall render a finding, in writing, following a full and complete review, which shall be a matter of public record, that no feasible and prudent alternative exists and that all possible steps have been taken to minimize such adverse effect.

(d) Hearings.—

(1) No airport development project involving the location of an airport, an airport runway, or a runway extension may be approved by the Secretary unless the public agency sponsoring the project certifies to the Secretary that there has been afforded the opportunity for public hearings for the purpose of considering the economic, social, and environmental effects of the airport location and its consistency
with the goals and objectives of such urban planning as has been carried out by the community.

(2) When hearings are held under paragraph (1) of this subsection, the project sponsor shall, when requested by the Secretary, submit a copy of the transcript to the Secretary.

(e) Air and Water Quality.—

(1) The Secretary shall not approve any project application for a project involving airport location, a major runway extension, or runway location unless the Governor of the State in which such project may be located certifies in writing to the Secretary that there is reasonable assurance that the project will be located, designed, constructed, and operated so as to comply with applicable air and water quality standards. In any case where such standards have not been approved or where such standards have been promulgated by the Secretary of the Interior or the Secretary of Health, Education, and Welfare, certification shall be obtained from the appropriate Secretary. Notice of certification or of refusal to certify shall be provided within sixty days after the project application is received by the Secretary.

(2) The Secretary shall condition approval of any such project application on compliance during construction and operation with applicable air and water quality standards.

(f) Airport Site Selection.—

(1) Whenever the Secretary determines (A) that a metropolitan area comprised of more than one unit of State or local government is in need of an additional airport to adequately meet the air transportation needs of such area, and (B) that an additional airport for such area is consistent with the national airport system plan prepared by the Secretary, he shall notify, in writing, the governing authorities of the area concerned of the need for such additional airport and request such authorities to confer, agree upon a site for the location of such additional airport, and notify the Secretary of their selection. In order to facilitate the selection of a site for an additional airport under the preceding sentence, the Secretary shall exercise such of his authority under this part as he may deem appropriate to carry out the provisions of this paragraph. For the purposes of this subsection, the term "metropolitan area" means a standard metropolitan statistical area as established by the Bureau of the Budget, subject however to such modifications and extensions as the Secretary may determine to be appropriate for the purposes of this subsection.

(2) In the case of a proposed new airport serving any area, which does not include a metropolitan area, the Secretary shall not approve any airport development project with respect to any proposed airport site not approved by the community or communities in which the airport is proposed to be located.

(g) State Standards.—

(1) The Secretary is authorized to make grants to any State, upon application therefor, for not to exceed 75 per centum of the cost of developing standards for airport development at general aviation airports in such State, other than standards for safety of approaches. The aggregate of all grants made to any State under this paragraph shall not exceed $25,000.
(2) The Secretary is authorized to approve standards established by a State for airport development at general aviation airports in such State, other than standards for safety of approaches, and upon such approval such State standards shall be the standards applicable to such general aviation airports in lieu of any comparable standard established under subsection (a) of this section. State standards approved under this subsection may be revised, from time to time, as the State or the Secretary determines necessary, subject to approval of such revisions by the Secretary.

(3) There is authorized to be appropriated out of the Airport and Airway Trust Fund not to exceed $1,275,000 to carry out this subsection.

(h) The Secretary is authorized in connection with any project to accept a certification from a sponsor or a planning agency that such sponsor or agency will comply with all of the statutory and administrative requirements imposed on such sponsor or agency under this Act in connection with such project. Acceptance by the Secretary of a certification from a sponsor or agency may be rescinded by the Secretary at any time if, in his opinion, it is necessary to do so. Nothing in this subsection shall affect or discharge any responsibility or obligation of the Secretary under any other Federal law, including the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.), section 4(f) of the Department of Transportation Act (49 U.S.C. 1652), title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000b), title VIII of the Act of April 11, 1968 (42 U.S.C. 3601 et seq.), and the Uniform Relocation Assistance and Land Acquisition Policies Act of 1970 (42 U.S.C. 4601 et seq.).

SEC. 17. [84 STAT. 228, AS AMENDED BY 85 STAT. 89, 90 STAT. 877, 49 U.S.C. 1711] UNITED STATES SHARE OF PROJECT COSTS

(a) General Provision.—Except as otherwise provided in this section, the United States share of allowable project costs payable on account of any approved airport development project submitted under section 16 of this part—

(1) may not exceed 50 per centum of the allowable project costs in the case of grants made from funds for fiscal years 1971, 1972, and 1973, and may not exceed 50 per centum for sponsors whose airports enplane not less than 1 per centum of the total annual passengers enplaned by air carriers certificated by the Civil Aeronautics Board, and may not exceed 75 per centum for sponsors whose airports enplane less than 1 per centum of the total annual passengers enplaned by air carriers certificated by the Civil Aeronautics Board and for sponsors of general aviation or reliever airports, in the case of grants made from funds for fiscal years 1974 and 1975; and
(2) (A) shall be 90 per centum of the allowable project costs in the case of grants from funds for fiscal year 1976, including the period July 1, 1976, through September 30, 1976, and for fiscal years 1977 and 1978, and shall be 80 per centum of the allowable project costs in the case of grants from funds for fiscal years 1979 and 1980, (i) for each air carrier airport (other than a commuter service airport) which enplanes less than one-quarter of 1 per centum of the total annual passengers enplaned as determined for purposes of making the latest annual apportionment under section 15 (a) (3) of this Act, (ii) for each commuter service airport, and (iii) for each general aviation airport; and

(B) shall be 75 per centum of the allowable project costs in the case of all other airports.

(b) Projects in Public Land States.—In the case of any State containing unappropriated and unreserved public lands and non-taxable Indian lands (individual and tribal) exceeding 5 per centum of the total area of all lands therein, the United States share under subsection (a) shall be increased by whichever is the smaller of the following percentages thereof: (1) 25 per centum, or (2) a percentage equal to one-half of the percentage that the area of all such lands in that State is of its total area. In no event shall such United States share, as increased by this subsection, exceed the greater of (1) the percentage share determined under subsection (a) of this section, or (2) the percentage share applying on June 30, 1975, as determined under this subsection.

(c) Projects in the Virgin Islands, American Samoa, and the Trust Territory of the Pacific Islands.—For fiscal years 1971 through 1975, the United States share payable on account of any approved project for airport development in the Virgin Islands, American Samoa, or the Trust Territory of the Pacific Islands shall be any portion of the allowable project costs of the project, not to exceed 75 per centum, as the Secretary considers appropriate for carrying out the provisions of this part.

(d) Landing Aids.—To the extent that the project costs of an approved project for airport development represent the cost of (1) land required for the installation of approach light systems, (2) touchdown zone and centerline runway lighting, or (3) high intensity runway lighting, the United States share shall be the same percentage as is otherwise applicable to such project.

(a) Sponsorship.—As a condition precedent to his approval of an airport development project under this part, the Secretary shall receive assurances in writing, satisfactory to him, that—

(1) the airport to which the project for airport development relates will be available for public use on fair and reasonable terms
and without unjust discrimination, including the requirement that
(A) each air carrier, authorized to engage directly in air trans-
portation pursuant to section 401 or 402 of the Federal Aviation
Act of 1958, using such airport shall be subject to nondiscrimina-
tory and substantially comparable rates, fees, rentals, and other
charges and nondiscriminatory and substantially comparable
rules, regulations, and conditions as are applicable to all such air
 carriers which make similar use of such airport and which utilize
similar facilities, subject to reasonable classifications such as ten-
ants or nontenants, and combined passenger and cargo flights or
all cargo flights, and such classification or status as tenant shall
not be unreasonably withheld by any airport provided an air car-
rier assumes obligations substantially similar to those already
imposed on tenant air carriers; and (B) each fixed-based operator
using a general aviation airport shall be subject to the same rates,
fees, rentals, and other charges as are uniformly applicable to all
other fixed-based operators making the same or similar uses of
such airport utilizing the same or similar facilities;

(2) the airport and all facilities thereon or connected therewith
will be suitably operated and maintained, with due regard to
climatic and flood conditions;

(3) the aerial approaches to the airport will be adequately
cleared and protected by removing, lowering, relocating, marking,
or lighting or otherwise mitigating existing airport hazards and
by preventing the establishment or creation of future airport
hazards;

(4) appropriate action, including the adoption of zoning laws,
has been or will be taken, to the extent reasonable, to restrict the
use of land adjacent to or in the immediate vicinity of the airport
to activities and purposes compatible with normal airport opera-
tions, including landing and takeoff of aircraft;

(5) all of the facilities of the airport developed with Federal
financial assistance and all those usable for landing and takeoff of
aircraft will be available to the United States for use by Govern-
ment aircraft in common with other aircraft at all times without
charge, except, if the use by Government aircraft is substantial, a
charge may be made for a reasonable share, proportional to such
use, of the cost of operating and maintaining the facilities used;

---

2 Section 10(d) of the Act of July 12, 1976 (P.L. 94-353, 90 Stat. 879) provides the
following with respect to this provision: "The amendment made to section 18(a)(1)(A)
of the Airport and Airway Development Act of 1970 (as amended by subsection (c) of
this section) shall not require the reformation of any lease or other contract entered into by
an airport before the date of enactment of this Act."

2 Section 10(d) of the Act of July 12, 1976 (P.L. 94-353, 90 Stat. 879) provides the
following with respect to this provision: "The amendment made to section 18(a)(1)(B)
of the Airport and Airway Development Act of 1970 (as amended by subsection (c) of
this section) shall not require the reformation of any lease or other contract entered into by
an airport before July 1, 1976."
(6) the airport operator or owner will furnish without cost to the Federal Government for use in connection with any air traffic control activities, or weather-reporting and communication activities related to air traffic control, any areas of land or water, or estate therein, or rights in buildings of the sponsor as the Secretary considers necessary or desirable for construction at Federal expense of space or facilities for such purposes;

(7) all project accounts and records will be kept in accordance with a standard system of accounting prescribed by the Secretary after consultation with appropriate public agencies;

(8) the airport operator or owner will maintain a fee and rental structure for the facilities and services being provided the airport users which will make the airport as self-sustaining as possible under the circumstances existing at that particular airport, taking into account such factors as the volume of traffic and economy of collection, except that no part of the Federal share of an airport development project for which a grant is made under this title or under the Federal Airport Act (49 U.S.C. 1101 et seq.) shall be included in the rate base in establishing fees, rates, and charges for users of that airport;

(9) the airport operator or owner will submit to the Secretary such annual or special airport financial and operations reports as the Secretary may reasonably request; and

(10) the airport and all airport records will be available for inspection by any duly authorized agent of the Secretary upon reasonable request.

To insure compliance with this section, the Secretary shall prescribe such project sponsorship requirements, consistent with the terms of this part, as he considers necessary. Among other steps to insure such compliance the Secretary is authorized to enter into contracts with public agencies, on behalf of the United States. Whenever the Secretary obtains from a sponsor any area of land or water, or estate therein, or rights in buildings of the sponsor and constructs space or facilities thereon at Federal expense, he is authorized to relieve the sponsor from any contractual obligation entered into under this part or the Federal Airport Act to provide free space in airport buildings to the Federal Government to the extent he finds that space no longer required for the purposes set forth in paragraph (6) of this subsection.

(b) Consultation.—In making a decision to undertake any project under this title, any sponsor of an air carrier airport shall consult with air carriers using the airport at which such airport development project is proposed and any sponsor of a general aviation airport shall consult with fixed-base operators using the airport at which such airport development project is proposed.

Upon approving a project application for airport development, the Secretary, on behalf of the United States, shall transmit to the sponsor or sponsors of the project application an offer to make a grant for the United States share of allowable project costs. An offer shall be made
upon such terms and conditions as the Secretary considers necessary
to meet the requirements of this part and the regulations prescribed
thereunder. Each offer shall state a definite amount as the maximum
obligation of the United States payable from funds authorized by this
part, and shall stipulate the obligations to be assumed by the sponsor
or sponsors. In any case where the Secretary approves an application
for a project which will not be completed in one fiscal year, the offer
shall, upon request of the sponsor, provide for the obligation of funds
apportioned or to be apportioned to the sponsor pursuant to section
15(a)(3)(A) of this title for such fiscal years (including future fiscal
years) as may be necessary to pay the United States share of the cost
of such project. If and when an offer is accepted in writing by the
sponsor, the offer and acceptance shall comprise an agreement con-
stituting an obligation of the United States and of the sponsor. There-
after, the amount stated in the accepted offer as the maximum obliga-
tion of the United States may not be increased by more than 10 per
centum. Unless and until an agreement has been executed, the United
States may not pay, nor be obligated to pay, any portion of the costs
which have been or may be incurred.

SEC. 20. [84 STAT. 230, AS AMENDED BY 90 STAT. 879, 49 U.S.C. 1720]
PROJECT COSTS.

(a) ALLOWABLE PROJECT COSTS.—Except as provided in section 21
of this part, the United States may not pay, or be obligated to pay,
from amounts appropriated to carry out the provisions of this part,
any portion of a project cost incurred in carrying out a project for
airport development unless the Secretary has first determined that
the cost is allowable. A project cost is allowable if—

(1) it was a necessary cost incurred in accomplishing airport
development in conformity with approved plans and specifications
for an approved airport development project and with the terms
and conditions of the grant agreement entered into in connection
with the project;

(2) it was incurred subsequent to the execution of the grant
agreement with respect to the project, and in connection with
airport development accomplished under the project after the
execution of the agreement. However, the allowable costs of a
project may include any necessary costs of formulating the project
(including the costs of field surveys and the preparation of plans
and specifications, the acquisition of land or interests therein or
easements through or other interests in airspace, and any neces-
sary administrative or other incidental costs incurred by the
sponsor specifically in connection with the accomplishment of the
project for airport development, which would not have been in-
curred otherwise) which were incurred subsequent to May 13,
1946;
(3) in the opinion of the Secretary it is reasonable in amount, and if the Secretary determines that a project cost is unreasonable in amount, he may allow as an allowable project cost only so much of such project cost as he determines to be reasonable; except that in no event may he allow project costs in excess of the definite amount stated in the grant agreement; and

(4) it has not been included in any project authorized under section 13 of this part.

The Secretary is authorized to prescribe such regulations, including regulations with respect to the auditing of project costs, as he considers necessary to effectuate the purposes of this section.

(b) Terminal Development.—

(1) Notwithstanding any other provision of this title, upon certification by the sponsor of any air carrier airport that such airport has, on the date of submittal of the project application, all the safety and security equipment required for certification of such airport under section 612 of the Federal Aviation Act of 1958, and has provided for access to the passenger enplaning and deplaning area of such airport to passengers enplaning or deplaning from aircraft other than air carrier aircraft, the Secretary may approve, as allowable project costs of a project for airport development at such airport, terminal development (including multimodal terminal development) in nonrevenue producing public-use areas which are directly related to the movement of passengers and baggage in air commerce within the boundaries of the airport, including, but not limited to, vehicles for the movement of passengers between terminal facilities or between terminal facilities and aircraft.

(2) Only sums apportioned under section 15(a)(3)(A) to the sponsor of an air carrier airport shall be obligated for project costs allowable under paragraph (1) of this subsection in connection with airport development at such airport, and no more than 60 per centum of such sums apportioned for any fiscal year shall be obligated for such costs.

(3) Sums apportioned under section 15(a)(3)(A) to the sponsor of an air carrier airport at which terminal development was carried out on or after July 1, 1970, and before the date of enactment of this paragraph shall be available, subject to the limitations contained in paragraph (2) of this subsection, for the immediate retirement of the principal of bonds or other evidences of indebtedness the proceeds of which were used for that part of the terminal development at such airport the cost of which is allowable under paragraph (1) of this subsection subject to the following conditions:

(A) That such sponsor submits the certification required under paragraph (1) of this subsection.

(B) That the Secretary determines that no project for airport development at such airport outside the terminal area will be deferred if such sums are used for such retirement.

(C) That no funds available for airport development under this Act shall be obligated for any project for additional terminal development at such airport for a period of three years beginning on the date any such sums are used for such retirement.
(4) Notwithstanding section 17, the United States share of project costs allowable under paragraph (1) of this subsection shall be 50 per centum.

(5) The Secretary shall approve project costs allowable under paragraph (1) of this subsection under such terms and conditions as may be necessary to protect the interests of the United States.

(c) Costs Not Allowed.—Except as provided in subsection (b) of this section, the following are not allowable project costs: (1) the cost of construction of that part of an airport development project intended for use as a public parking facility for passenger automobiles; or (2) the cost of construction, alteration, or repair of a hangar or of any part of an airport building except such of those buildings or parts of buildings intended to house facilities or activities directly related to the safety of persons at the airport.

The Secretary, after consultation with the sponsor with which a grant agreement has been entered into, may determine the times and amounts in which payments shall be made under the terms of a grant agreement for airport development. Payments in an aggregate amount not to exceed 90 per centum of the United States share of the total estimated allowable project costs may be made from time to time in advance of accomplishment of the airport development to which the payments relate, if the sponsor certifies to the Secretary that the aggregate expenditures to be made from the advance payments will not at any time exceed the cost of the airport development work which has been performed up to that time. If the Secretary determines that the aggregate amount of payments made under a grant agreement at any time exceeds the United States share of the total allowable project costs, the United States shall be entitled to recover the excess. If the Secretary finds that the airport development to which the advance payments relate has not been accomplished within a reasonable time or the development is not completed, the United States may recover any part of the advance payment for which the United States received no benefit. Payments under a grant agreement shall be made to the official or depository authorized by law to receive public funds and designated by the sponsor.

SEC. 22. [84 STAT. 231, 49 U.S.C. 1722] PERFORMANCE OF CONSTRUCTION WORK.

(a) Regulations.—The construction work on any project for airport development approved by the Secretary pursuant to section 16 of this part shall be subject to inspection and approval by the Secretary and in accordance with regulations prescribed by him. Such regulations shall require such cost and progress reporting by the sponsor or sponsors of such project as the Secretary shall deem necessary. No such regulation shall have the effect of altering any contract in connection with any project entered into without actual notice of the regulation.

(b) Minimum Rates of Wages.—All contracts in excess of $2,000 for work on projects for airport development approved under this part which involve labor shall contain provisions establishing minimum

obligations shall be the multiple of one-eight of 1 percent next lower than such average rate. Such special obligations shall be issued only if the Secretary of the Treasury determines that the purchase of other interest-bearing obligations of the United States, or of obligations guaranteed as to both principal and interest by the United States on original issue or at the market price, is not in the public interest.
